- DOT laminated glass front windshield as optional and comes with wiper
- Wiper has option to add water spray system.

DRIVING TIPS:

- Always drive responsibly; arms and legs should always be in the vehicle and, if your cart is equipped with them, seat belts should always be fastened.
- Only carry passengers that you have seats for. Do not try to squeeze in extra passengers.
- Never drive recklessly or joy ride. Be courteous to other drivers and obey vehicle traffic laws and rules of the road.
- Never drive in toxic or under influence of any drug or narcotic.
- Never allow anyone to stand in the vehicle or on the platform located in the back of the vehicle and never put the vehicle in motion until all passengers are safely inside the vehicle and buckled in.
- Always use hand signal to indicate upcoming turn as well as your turn signals. Turn signals may be small or unnoticed by vehicles behind you so it's always a good idea to use hand signals as well.
- Use caution while turning and look behind your golf cart before backing up.
- Avoid excessive speeds, sudden starts and stops, and avoid sharp turn at fast speeds.
- Reduce speed depending on the driving conditions and driving environment. Reduce speed on hills and inclines or declines, blind curves and yield to pedestrians.
- Use extreme caution in inclement weather. Golf carts may be prone to lightning strikes. Avoid driving in inclement weather if you can.
